Prody® Drainage Bulb Holder II Kit

The Drainage Bulb Holder II Kit is the newest version of the original Drainage Bulb Holder Kit, with improved easy grip fasteners making drain care easier. It securely supports and organizes drainage bulbs and allows patients to move more comfortably while promoting drain function. The Kit transitions from the hospital or surgery center to the home setting promoting patient compliance and comfort.

improved
easy grip
fasteners!

Prody® Drainage Bulb Holder II Kit

Size	Description	Model #	Unit
Universal	Kit	PPDB-2K	Each

Benefits and Advantages

- New improved easy grip fasteners that are easier to grip for drain care. Drainage Bulbs are visible to determine need to empty, yet not visible to others under clothing
- Kit contains all needed supplies for drain care: 2 measuring cups, A Drainage Output Record Sheet with patient education, 2 Drainage Bulb Holder II belts-one for showering-if allowed-and one for dry use
- Secures up to four drainage bulbs eliminating the need for safety pins
- Maximizes drain function, decreases tugging, tangling or potential dislodgement
- Promotes comfort to increase daily activities, sleeping, or in the shower-if allowed
- Can be positioned for either right or left-handed fastener opening
- Decreases complications and improves outcomes
- Soft adjustable Latex-free fabric. Universal in size and gender (stretches up to 54")
