Prody® Drainage Bulb Holder II

The Drainage Bulb Holder II is the newest version of the original Drainage Bulb Holder, with improved easy grip fasteners making drain care easier. It securely supports and organizes drainage bulbs and allows patients to move more comfortably while promoting drain function.

Prody® Drainage Bulb Holder II

Size	Unit	Model #	Case
Universal	Each	PPDB-2	50

US Patent #11,090,184

Benefits and Advantages

- New improved easy grip fasteners that are easier to grip for drain care. Drainage Bulbs are visible to determine need to empty, yet not visible to others under clothing
- Secures up to four drainage bulbs eliminating the need for safety pins
- It can be positioned on the chest, abdomen, waist or thigh. Can be positioned for either right or left-handed fastener opening
- Maximizes drain function, decreases tugging, tangling or potential dislodgement
- Promotes comfort to increase daily activities, sleeping, or in the shower-if allowed-(then 2 belts are needed-one for shower-one for dry use) *The Drainage Bulb Holder II Kit contains 2 belts plus all the needed supplies for drain care
- Decreases complications and improves outcomes
- Soft adjustable Latex-free fabric. Universal in size and gender (stretches up to 54")
